Aeromot Ximango Extended Canopy Cover, Engine, Prop & Wing Covers

## Section 1: Glider Canopy/Cockpit/Fuselage Covers

Grob 109 Canopy/Engine Cover

Aeromot Ximango Extended Canopy Cover, Engine, Prop & Wing Covers

Description	Part Number	Price
CANOPY COVER	<b>XIM-000</b>	<b>\$690.00</b>
CANOPY/ENGINE COVER	<b>XIM-005</b>	<b>\$770.00</b>

EXTENDED CANOPY/ENGINE COVER, with extension to tail	XIM-010	\$1185.00
EXTENDED CANOPY COVER	XIM-011	\$835.00
EXTENDED CANOPY/ENGINE COVER	XIM-012	\$980.00

## Section 2: Engine Covers

Aeromot Ximango Extended Canopy Cover, Engine, Prop & Wing Covers

Aeromot Ximango Extended Canopy Cover, Engine, Prop & Wing Covers

Description	Part Number	Price
ENGINE COVER	XIM-110	\$470.00
INSULATED ENGINE COVER	XIM-115	\$655.00
PROPELLOR/SPINNER COVER, 2 Blade	XIM-120	\$300.00
INSULATED PROPELLOR/SPINNER COVER, 2 Blade	XIM-125	\$450.00
INSULATED HANGAR BLANKET, INTERIOR USE	XIM-HB2	\$300.00

## Section 4: Glider Wing/Tail/Empennage Covers

**All Weather Wing Covers** are a perfect solution to protect your paint from sun damage and prevent winter frost, snow, ice buildup, and corrosion. They are made from Solution-Dyed Polyester or Acrylic *Sunbrella* and form-fit to slip around each wing tip, cover the entire upper surface of the wing and wrap around the leading and trailing edges. The covers secure under the wing with adjustable straps from the trailing edge to the leading edge. The wing covers can also attach to each other with adjustable straps at the leading and trailing edges of the wing under the belly of the plane. Wing covers are labeled LEFT and RIGHT for installation convenience. Wing Covers are available for travel use or long-term, all year use.

**ALL-YEAR USE MATERIAL** - Made with Silver Acrylic Sunbrella canvas, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

**WINTER USE MATERIAL** - Made with Solution-Dyed Polyester fabric, this option is intended for seasonal use to aid in deicing, rain mitigation, or for occasional travel. The material is lighter and more compact, but more susceptible to UV damage and may have a shorter useful life if used continuously outside than the all-year use material.

**All Weather Horizontal Stabilizer Covers** are a perfect solution to protect your paint from sun damage and prevent frost, snow, ice buildup, and corrosion. They are made from Solution-Dyed Polyester or Acrylic *Sunbrella*. They cover the entire upper surface of the stabilizers and overlap around the leading and trailing edges as well as the wing tip. The covers secure under each stabilizer

with adjustable straps. In some instances, cut-outs are made in the trailing edge of the wing covers to accommodate static wicks. Horizontal Stabilizer Covers are available for winter use or long-term all year use, and are normally made from Solution-Dyed Polyester or Acrylic *Sunbrella*. A Hail Protection version can be made which incorporates dense closed cell foam into the entire upper surface of the wing covers to help prevent hail damage. Although these covers are bulky, they do help protect your wing and control surfaces against small to medium-size hail.

**ALL-YEAR USE MATERIAL** - Made with Silver Acrylic Sunbrella canvas, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

**WINTER USE MATERIAL** - Made with Solution-Dyed Polyester fabric, this option is intended for seasonal use to aid in deicing, rain mitigation, or for occasional travel. The material is lighter and more compact, but more susceptible to UV damage and may have a shorter useful life if used continuously outside than the all-year use material.

The **Aeromot Ximango AMT 100/200/300 Empennage Cover** is a complete, one-piece cover which covers both the vertical and horizontal stabilizers, as well as the tailboom. It is normally made from *Solution-Dyed Polyester* or *Acrylic Sunbrella*. The cover attaches with adjustable straps underneath the belly. The cover is pulled back over the vertical stabilizer and a plastic all-weather zipper is closed at the trailing edge of the rudder. The cover is then stretched over the elevators and zippered closed along the bottom outboard elevator surfaces. The covers cinch under the horizontal stabilizers using adjustable straps. All antennas, beacons and static wicks, if applicable, are accounted for in the design.

**ALL-YEAR USE MATERIAL** - Made with Silver Acrylic Sunbrella canvas, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

**WINTER USE MATERIAL** - Made with Solution-Dyed Polyester fabric, this option is intended for seasonal use to aid in deicing, rain mitigation, or for occasional travel. The material is lighter and more compact, but more susceptible to UV damage and may have a shorter useful life if used continuously outside than the all-year use material.

Aeromot Ximango Extended Canopy Cover, Engine, Prop & Wing Covers

Grob 109 Canopy/Engine w/ extension to tail, Wing, Stabilizer & Prop/Spinner Covers

Description	Part Number	Price
WING COVERS (A-MODEL), WINTER USE (set of 2)	XIM-200	\$845.00
WING COVERS (A-MODEL), ALL YEAR USE (set of 2)	XIM-205	\$1100.00
HORIZONTAL STABILIZER COVER (A-MODEL), WINTER USE	XIM-300	\$285.00
HORIZONTAL STABILIZER COVER (A-MODEL), ALL YEAR USE	XIM-305	\$365.00
